BIO RAY LIMITED

Guarding Lives, Securing Property

Leading provider of comprehensive fire safety and security solutions across Kenya, delivering peace of mind through cutting-edge technology and expert service.

About Bio Ray Limited

Bio Ray Limited stands at the forefront of Kenya's fire safety and security industry, providing innovative protection systems to homes, businesses, and institutions across the nation. Based in Nairobi, we combine technical expertise with unwavering commitment to safeguarding lives and property.

Our Vision

To be a trusted global leader in security, safety, and sustainable energy solutions.

Our Mission

To provide sustainable, reliable and innovative security, fire, and solar solutions with integrity and professionalism.

BIO RAY
SOLUTIONS

Our Services

CCTV Installation

Professional installation of HD and IP CCTV systems with remote monitoring and 24/7 surveillance for homes and businesses.

Solar Energy Solutions

Reliable solar power and backup systems designed to reduce energy costs and ensure uninterrupted electricity supply.

Alarm & Access Control Systems

Advanced intruder alarms, biometric access, and smart entry systems to prevent unauthorized access.

Fire Equipments Supply & Maintenance

Supply, installation, and servicing of fire extinguishers, alarms, and other essential fire safety equipment.

Electric Fencing and Smart Homes Automation

Secure electric fencing and smart automation systems for improved perimeter protection and remote control convenience.

Comprehensive Fire Safety Solutions

Fire Extinguishers & Suppression

Complete range of certified fire extinguishers and advanced suppression systems tailored to your specific environment and risk profile.

Fire Detection Systems

State-of-the-art smoke detectors, heat sensors, and alarm systems ensuring early warning and rapid response capabilities.

Fire Safety Training

Professional training programmes equipping your team with essential fire prevention knowledge and emergency response skills.

Advanced Security Systems

CCTV Installation & Monitoring

Our comprehensive CCTV solutions provide 24/7 surveillance with high-definition cameras, remote monitoring capabilities, and intelligent analytics. We design custom systems that integrate seamlessly with your existing infrastructure.

- HD and 4K camera systems
- Remote mobile access and monitoring
- Night vision and weather-resistant options
- Cloud storage and local recording
- Motion detection and alert systems

Maintenance & Inspection Services

Regular Safety Inspections

Comprehensive audits of all fire safety and security equipment ensuring compliance with Kenyan standards and optimal performance.

Preventive Maintenance

Scheduled servicing and testing programmes that extend equipment lifespan and guarantee reliability when you need it most.

Emergency Support

Round-the-clock technical support and rapid response team available for urgent repairs and emergency situations.

Our maintenance contracts provide complete peace of mind with regular inspections, priority service, and detailed compliance documentation for regulatory requirements.

Why Choose Bio Ray Limited

Certified Professionals

Our technicians hold industry certifications and undergo continuous training to deliver installations and services that meet international safety standards.

Quality Equipment

We source only certified, tested equipment from reputable manufacturers, ensuring durability, reliability, and compliance with Kenyan safety regulations.

Nationwide Coverage

With service capabilities extending across Kenya, we provide consistent support whether you're in Nairobi, Mombasa, Kisumu, or anywhere in between.

Rapid Response

Our commitment to quick turnaround times means installations are completed efficiently and emergency support arrives when you need it most.
